

## **Nessus Vulnerability Scanner Voted WindowSecurity.com Readers' Choice Award Winner**

**October 30, 2007 – Columbia, MD** – Tenable Network Security, Inc., the leader in unified security monitoring and creator of the popular and award-winning Nessus vulnerability scanner, today announces that leading Windows Security resource site, WindowSecurity.com, announced that Nessus Security Scanner was selected the winner in the Security Scanner Software category of the WindowSecurity.com Readers' Choice Awards.

"Our Readers' Choice Awards give visitors to our site the opportunity to vote for the products they view as the very best in their respective category," said Sean Buttigieg, WindowSecurity.com manager. "WindowSecurity.com users are specialists in their field who encounter various network security solutions at the workplace. The award serves as a mark of excellence, providing the ultimate recognition from peers within the industry."

WindowSecurity.com conducts monthly polls to discover which product is preferred by Network Security administrators in a particular category of third party network security solutions. The awards draw a huge response per category and are based entirely on the visitors' votes. WindowSecurity.com visitors can submit their votes for the current Readers' Award poll in the site's left-hand bar.

### **About Nessus Security Scanner**

The **Nessus**<sup>™</sup> vulnerability scanner, is the world-leader in active scanners, featuring high speed discovery, configuration auditing, asset profiling, sensitive data discovery and vulnerability analysis of your security posture. Nessus scanners can be distributed throughout an entire enterprise, inside DMZs, and across physically separate networks.

When Nessus is managed with Tenable's [Security Center](#), an enterprise can perform full life-cycle vulnerability and configuration management. Organizations can communicate recommendations to the responsible parties, track remediation activity, and verify security patches and required configurations.

Nessus is supported by a world renowned research team and has the largest vulnerability knowledge base, making it suitable for even the most complex environments.

### **About WindowSecurity.com**

[WindowSecurity.com](#) is a Microsoft Windows Security resource site. It is the leading Windows Security site, attracting over 400,000 Security administrators and specialists a month. The site provides the latest Windows Security Services, articles and tutorials by leading Windows Security experts, message boards, software listings, and product reviews.

WindowsSecurity.com forms part of a group of sites run by TechGenix Ltd., including <http://www.windownetworking.com> - a comprehensive Windows Networking resource site; <http://www.msexchange.org>, a Microsoft Exchange Server resource site; <http://www.msterminalservices.org>, a Server Based Computing resource site; and <http://www.isaserver.org>, a Microsoft ISA Server resource site.
