

Marcus Ranum, Tenable CSO, Will Participate in the IDC Security Roadshow

WHAT: IDC's IT Security Roadshow has become the seminal annual event for CIOs and IT managers looking for the latest information on IT security trends and wanting to meet IT security gurus and industry professionals.

The growing complexity of IT systems and their security has created multiple challenges for CIOs and IT managers across the CEMA (Central Europe) region. They must address the explosion in the number of access points, communication technologies convergence, human behavior, company leaders still thinking in terms of antivirus software and firewalls, limited resources, and flat or even decreasing budgets. While basics remain essential, CIOs and IT security managers must also handle evolving authentication methods, well financed corporate espionage agents and cyberterrorists, as well as employee awareness.

IDC's sixth annual IT Security Roadshow will introduce you, among others,

Marcus Ranum

Chief of Security at Tenable Security, Inc.

the "Nostradamus of IT security" who created the first commercial firewall and won the International Systems Security Association's (ISSA) lifetime achievement award speaks on the future shape of IT security.

About IDC CEMA – We Know Emerging Markets

IDC CEMA is the most trusted market intelligence and advisory firm in Central & Eastern Europe and the Middle East & Africa (CEMA)

For more than 17 years, IDC CEMA has been analyzing the ICT markets of Central and Eastern Europe and the Middle East and Africa. We assess IT markets, examine vendor performance, and interpret market trends to support investment decisions, strategic planning, business development, technology choices, and marketing requirements.

We deliver practical advice and insight culled from a combination of rigorous primary research, in-depth analysis, and client interaction. IDC retains a coordinated network of offices and agents in Almaty, Athens, Belgrade, Budapest, Bucharest, Casablanca, Istanbul, Kyiv, Lagos, Ljubljana, Moscow, Nairobi, Sofia, Warsaw, Zagreb, Johannesburg, and Tel Aviv, with regional research centers in Prague and Dubai.

Our coverage couples local insight with an international perspective to provide a comprehensive understanding of markets in these regions. Our research is unparalleled in depth, consistency, scope, and accuracy.

IDC is a subsidiary of IDG, the world's leading technology media, research, and events company. Additional information can be found at www.idc.com.
